

Proactive IT Keeps a Multi-Site Contractor Operating Smoothly

Virtual IT provides quick support, stronger security, and clear leadership updates.

CLIENT: HC Company

INDUSTRY: Commercial construction

LOCATION: Boise, Idaho

SERVICES: General contracting, construction management, project delivery

Executive Summary

HC Company needed IT help that reached every employee fast. Virtual IT delivered quick, effective support, streamlined systems and hardware, and regular leadership updates with clear, actionable recommendations.

Challenges

- Needed quick tech support for staff in multiple locations
- Operations were fragmented systems
- Inconsistent hardware management
- Faced gaps in data protection and weaker cybersecurity

Virtual IT's Approach

Virtual IT paired fast response times with proactive account management and scheduled reviews.

Key Actions

- Delivered rapid helpdesk support for employees wherever they work
- Standardized systems and handled hardware lifecycle tasks
- Implemented data protection and cybersecurity improvements
- Presented quarterly or semi-annual leadership updates with clear recommendations

Solutions

- A unified support process that reduced back and forth
- Stronger security controls and practical guidance for staff
- Clear visibility for owners through reports and improvement roadmaps

The Results

- Faster resolutions and less downtime across the company
- Cleaner, more reliable systems and predictable hardware management
- Leadership gained actionable plans to improve technology over time

Looking for company-wide support that reaches every employee?

Virtual IT delivers quick help, clear updates, and proactive security for growing teams.
